

Your gifts at work

In 2016, there were 753 requests submitted for Foundation funding. A total of \$19,052,220 was disbursed from Aurora Health Care Foundation funds to support programs and initiatives that strengthen Aurora Health Care programs by helping to:

- Further train our physicians and caregivers by supporting efforts to advance their expertise and knowledge so they can serve as leaders in their field.
- Support innovation through investments in new technologies, efforts to create better care models and new discoveries that bring the latest in medicine to the forefront of our practices.
- Empower individuals to live well – before and after times when medical care is needed.
- Address gaps in health and wellness systems that engage and positively impact the medically underserved.
